**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,2 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Inoue (U.S. Patent No. 5,822,622).

Inoue shows a camera housing 20; a camera body 80; a lens barrel 30; and a lens housing 40. In column 5 lines 5-11 Inoue teaches that the lens housing mounting to the camera housing may be of the bayonet type. Inoue shows all claimed structure.

***Allowable Subject Matter***

3. Claims 3 and 4 are allowed. The primary reason for allowance of claims 3 and 4 is the claim limitation for a lens housing integral with the camera housing and having an opening in the side peripheral wall in combination with a cylindrical cover turnably fitted in the opening of the camera housing and having an opening in the peripheral wall, the cover being turned so that the openings of the lens housing and cover are placed one upon the other.
